WELCOME

to the pfenning group

The pfenning group is a contract logistics service provider with a full-service supply chain offering from the Rhine-Neckar metropolitan region. Managed by the third and fourth generation of the Pfenning family, the company has 125 years of logistics experience and employs nowadays 7,000 people at 110 locations in Germany, Poland, Hungary and Sweden.

With a fleet of 1.000 trucks and a total storage area of 1 million m², the company is the strong backbone for its customers' logistics and ranked 55th among 60,000 German-based logistics service providers in the „Top 100 of German Logistics“ study. In recent years, the product portfolio has been continuously expanded. State-of-the-art warehousing and transport solutions are accompanied by a wide range of value-added services, from plant security and metal construction to real estate development. On its growth path, pfenning group has already acquired six more companies since 2021, strengthening its service portfolio in the areas of e-commerce & fulfillment, mobility solutions, fresh produce logistics, personnel services and co-packing/display construction.

YOUR SAFETY

is our top priority

For this reason, we would like to ask you to read the safety instructions on the following pages carefully to familiarize yourself with the applicable rules of conduct. If you have any questions, please do not hesitate to contact your host or our safety officers (see back page).

Thank you for your understanding.
